

CATERING PROJECT.

Exciting News! Catering Project is taking over the Canteen and new Online Ordering

Dear Chatswood High School,

We hope this message finds you well. We are thrilled to announce the launch of our brand-new canteen. Catering Project through their canteen solutions brand “EATS” will officially commence on Monday, October 23rd, 2023. This exciting addition to the school will provide students with an enhanced and healthy canteen experience and greater convenience for all.

The completely new, revamped canteen menu features a wide variety of nutritious and delicious options, catering to different dietary preferences and restrictions. We have worked tirelessly to ensure that the food served is both healthy and appetising.

The canteen will be open from 8am through to 230pm, ensuring that students and staff have access to nourishing meals throughout the day.

Our qualified Chef and Canteen Supervisor will be onsite every day. They are knowledgeable about food safety and will maintain the highest hygiene standards and will be readily able to assist with any dietary needs or concerns.

Introducing Online Ordering: Flexischools

In addition to the new canteen offering, we are excited to introduce an online ordering option, making it easier for parents and students to plan their meals. With this convenient system, you will be able to:

- Pre-Order Meals: Parents can pre-order meals for their children, ensuring that their preferred choices are available and ready when needed.
- Online Payment: Make payments online, reducing the need for cash and providing a secure and efficient payment method.
- View Menu Options: Access the canteen menu in advance to help plan your child's meals and make selections that align with their dietary preferences.

We believe these enhancements will contribute to the overall well-being of the students by providing them with nourishing meals and the flexibility to plan their canteen visits conveniently.

Parents simply download the Flexischools app from the [Apple](#) or [Google](#) stores and follow the prompts to create an account. Once set up, click “Order Food” to see the online catalogues available, place your order and pay. Orders can be placed at any time, up until our specified cut-off time (as shown in the App).

We encourage parents to use this service to help us create a safer, more efficient school ordering and payment experience.

We are excited about these developments and look forward to the positive impact they will have on the school community. If you have any questions or require further information, please do not hesitate to reach out to the school office.

Warm regards,

Andrew Wade

Group Operations Manager
