

Chatswood High School

INSPIRING EXCELLENCE - ACHIEVING SUCCESS

YEAR 10 2021

ASSESSMENT POLICY

INFORMATION FOR

STUDENTS AND PARENTS

YEAR 10

ASSESSMENT POLICY 2021

Information for students and parents

Introduction

The Record of School Achievement (RoSA) is the credential for students who leave school **after** Year 10 and **before** they receive their Higher School Certificate (HSC).

Instead of just showing what your results were at the end of Year 10, the RoSA recognises that many students who leave school before completing their HSC, complete some Year 11 courses.

Fair Allocation of Grades

It is important for parents, employers and students to know that grades awarded for the RoSA credential are given fairly and consistently. There are no external examinations at the end of Year 10. All grades are determined within the school using information and guidance from the NSW Education Standards Authority (NESA).

- As A to E grading is extended into Year 11 courses, NESA will work with teachers to ensure that appropriate standards are developed and applied at that level.
- NESA will also provide schools with information about the historical allocation of grades to their students. This will serve as a guide for the allocation of grades to current students.
- These methods of moderation and monitoring of grades will help ensure that parents and employers can know that a grade awarded in one school is equivalent to the same grade awarded in another school.

Requirements

To successfully complete the Year 10 course and qualify for the RoSA credential students must have:

- Satisfactorily completed the mandatory curriculum requirements prescribed by the NSW Education Standards Authority
- Met satisfactory attendance requirements throughout the year and applied themselves in a serious manner to their courses
- Made a serious attempt at all assessment tasks.

Mandatory Curriculum

The NESA mandatory curriculum requirements for the completion of the Year 10 course are listed below:

English

Mathematics

Science

Human Society and its Environment: History and Geography in Stage 4; Australian History and Australian Geography in Stage 5

Languages: at least one language over a 12 month period in Year 7 and/or Year 8

Technological and Applied Studies: Technology mandatory syllabus in Years 7 and 8

Creative Arts: mandatory courses in Years 7 and 8

PDHPE: mandatory integrated course in Years 7-10

NESA also provides a wide range of additional (elective) courses that, if completed in accordance with Board Developed or Board Endorsed syllabuses and indicative time requirements, will be credentialed for the Year 10 course.

Satisfactory Completion of a Course

A student will be considered to have satisfactorily completed a course if they have:

- **followed** the course developed or endorsed by the NESA; and
- **applied** themselves with diligence and sustained effort to the set tasks and experiences provided in the course by the school; and
- **achieved** some or all of the course outcomes.

Notification of Assessment

Students will be given prior notice in writing of every assessment task. A **minimum of two weeks advance warning** will be given prior to the date of completion of each assessment task.

It is the student's responsibility if absent on the day an assessment notification is handed out to obtain any material from the teacher issued during the absence.

Submission of Work

For hand-in assessment tasks, students are to submit their work to their class teacher (or if the class teacher is absent, to the Head Teacher) during the normal period for that subject on the day the work is due, unless they are told otherwise.

Late Submission of Tasks

Responsibility for submitting required work by the due date rests with students. Submission/completion of tasks after the date due without a legitimate reason will result in a student being awarded zero in that task, and receiving an 'N' warning.

For research tasks and/or projects which are completed over an extended period of time, every effort must be made to submit the task on the due date. This could include sending the completed task in by a parent or with a brother or sister, contacting the teacher directly to make a mutually suitable arrangement for its collection or express posting it to arrive at the school by the due date.

'N' Warnings

If students are not completing work (classwork, homework, assessment tasks) they will be issued with a NESA N Warning letter by the Principal. This letter indicates that students are in danger of not satisfactorily completing mandatory requirements. The letter will contain information about work that must be completed and there will be a due date given. The student should submit the work to the class teacher and the N Warning will then be 'resolved'. If the student still doesn't complete the work a second 'N' Warning letter will be issued.

If a student does not meet all mandatory requirements by the end of Year 10, then the student will not be eligible for the award of a RoSA in that year. The student may receive a Transcript of Study showing all grades awarded, including 'N' determinations for mandatory courses studied in Stage 5. If a student does not meet all mandatory requirements by the end of Year 10, then the student will not be eligible for the award of a RoSA in that year.

'N' Determinations

NESA has delegated to principals the authority to determine whether students have satisfactorily completed the mandatory curriculum requirements.

Students not satisfactorily completing tasks with diligence and sustained effort will be advised of the tasks or actions to be undertaken in time for the problem to be corrected and alerted to the possible consequences of an 'N' award determination. The parent or guardian will be advised in writing.

Students who have not complied with the course completion criteria and who have received two written warnings can be regarded as not having satisfactorily completed the course at the time of finalising grades. The Principal may then apply for 'N' determination.

Students may appeal against the 'N' award determination to the Principal.

Assessment of Student Achievement at the Completion of the Course

Course Performance Descriptors have been specifically developed for the Years 7-10 syllabuses. They describe the main features of a typical performance at each grade measured against the syllabus objectives and outcomes for the course. These are available on the NESA website for each subject.

Areas of Assessment have been developed for each course, and are published with the Course Performance Descriptors. They provide a framework for structuring assessment tasks and reporting student achievement.

Assessing student achievement is the process of collecting information on student performance in relation to the objectives and outcomes of a course.

Grading student achievement is the process of assigning a letter (A/B/C/D/E) to summarise the level of a student's achievement in a course. In Mathematics, grades have been further differentiated to nine levels (A10, A9, B8, B7, C6, C5, D4, D3, E2)

The grading system is intended to describe the student's achievement at the end of each course in Stage 5. The final judgement of the grade gained will be based on assessment information and reference to the Course Performance Descriptors (see below).

NESA - A to E Grade Scale

The A to E grade scale summarises the standard (or quality) of achievement associated with each grade. The scale describes:

- the depth of knowledge and understanding and
- the range of skills that students working at that standard typically show.

The **Common Grade Scale** shown below is used to report student achievement in both primary and junior secondary years in all NSW schools.

The Common Grade Scale describes performance at each of five grade levels.

Grade	Description
A	The student has an extensive knowledge and understanding of the content and can readily apply this knowledge. In addition, the student has achieved a very high level of competence in the processes and skills and can apply these skills to new situations.
B	The student has a thorough knowledge and understanding of the content and a high level of competence in the processes and skills. In addition, the student is able to apply this knowledge and these skills to most situations.
C	The student has a sound knowledge and understanding of the main areas of content and has achieved an adequate level of competence in the processes and skills.
D	The student has a basic knowledge and understanding of the content and has achieved a limited level of competence in the processes and skills.
E	The student has an elementary knowledge and understanding in few areas of the content and has achieved very limited competence in some of the processes and skills.

Further information can be found at the following link: <https://www.educationstandards.nsw.edu.au>

Credentiailling

Year 10 students from 2021 will be entered with NESAs for a Year 10 pattern of study.

Attendance and application to tests and assessment tasks

Excursions

Some subject rules require students to undertake compulsory field study while some tasks may well be linked to excursions and performances. In the case of an unavoidable absence from such activities, the student must negotiate alternate arrangements **prior** to the event.

Extended Leave (over 3 days)

Students must apply in writing to the Principal for extended leave from school in Year 10.

If a student knows in advance that they will be absent on the day a task is due, then the task should be handed to the teacher **prior** to the due date. When the task is to be completed in class on the day in question, arrangements need to be made with the Head Teacher **prior** to the task for a suitable time to sit the task.

Illness / Misadventure

Consideration is given to students who suffer illness or misadventure at the time of a task or whose performance is impaired by circumstances beyond their control. The following policy will be applied at this school to ensure that no one student gains an unfair advantage over other students.

If a student is absent due to **illness/ misadventure on the day of an in-school assessment task:**

- Students must report to the Teacher/Head Teacher/Deputy Principal on the first day of their return to school to obtain an Illness/Misadventure Form and present a medical certificate for illness or a parent note for a misadventure. Illness/Misadventure forms can also be downloaded from the school's website.

If **illness or misadventure occurs during an in-school assessment** for a student, they must inform the supervisor of the task about their condition or situation before leaving the room.

If a student does not have a valid reason with the required documentation for missing an in-school task and has failed to follow this procedure, the student will be awarded zero for the task.

If a student is absent due to **illness/misadventure on the day an assessment task is due to be submitted:**

- The student must submit the task to the relevant Teacher/Head Teacher/Deputy Principal on the first day of their return to school and obtain and complete an Illness/Misadventure Form, with medical certificate for illness or parent note for misadventure.

Students are NOT to leave assessment tasks on the teacher's desk.

If the student has only completed part of the hand-in task, this part must be submitted regardless.

Students must attend all classes on the day tasks are due.

N.B. Tasks must be submitted at the required time as a hard copy and NOT in electronic format, unless the latter is specifically requested as part of the task. Therefore, technology problems are NOT a valid excuse for lateness. Technology problems are not accepted as misadventure.

Failure to submit tasks on the due date will result in a **zero mark**, but tasks still have to be attempted to complete the outcomes of the course.

Students who fail to submit a task will be given an '**N**' **warning letter** and given a chance to make up the task to meet the course outcomes.

Malpractice and breaches of examination rules in relation to Year 10 assessments

Malpractice is an activity undertaken by a student that allows them to gain an unfair advantage over others. It includes, but is not limited to:

- **Copying** someone else's work and presenting it as their own
- **Plagiarism** or using material directly from books, journals, CDs, or the internet without reference to the source
- **Borrowing** or stealing another person's work and presenting it as their own
- **Offering false documentation** or explanations in support of an appeal
- **Non-serious attempt** in an examination or assessment task, where work presented contains frivolous or objectionable material
- **Assisting** another student to engage in malpractice

Work submitted for **assessment tasks** must be the student's own work. Malpractice in an assessment task will render a **zero** score and the student will be subject to consequences based on the school's code of conduct.

Feedback on assessment tasks

Students will be given meaningful feedback following each assessment task:

- A mark/grade and information on the outcomes achieved as indicated by the marking criteria
- Information which assists students to improve on their performance in future tasks.

CHINESE YEAR 10 ASSESSMENT PROGRAM
